The fifth place receives the sequence f. Finally, costs are awarded, the facts are discussed in accordance with the relevant principles and the rules of the actual case are applied. Title ##### 2. ##### Paramract ##### 3 3. ##### Arguments 5. Conclusion ##### #The Process This is followed by a proposal ##### (##### and letters. 4 Communication Skills and Arguments. An Introduction to Non-Verbal Communication Interviews examines logical and reasoned arguments and guardianship in non-verbal communication court2 What is non-verbal communication? People usually communicate through discourse or written expressions in which I spoke or worked is especially important. We can also communicate using our body language (facial expression, posture, etc.), not to mention (or write). Non-verbal communication is called the importance of non-verbal communication for a lawyer, and their work based on credibility and persuasion - lawyers are important verbally to convince the client that they can win their case and convince the judge to accept your unparalleled logic of argument. There is a lack of verbal communication between lawyersThis prevents the collection of relevant information and providing specific recommendations. It can also interfere with a relationship with a partner and gain self -confidence and self -confidence is the difference between listening and listening - listening is passive, while listening is an active and known partner action. What are good listening skills? · Two ways of listening to the facts about listening to feelings and emotions. , try to stay objective in your comments on questions about explanations about the explanation by listening even more actively, because you have to listen to what it reminds you, what has been said, and what it means effectively listening to the emotions that § §, do not The spokesperson § § Use nonverbal techniques to encourage the speaker to relax and trust those who are agoodlestner? Maitan's empathetic eye contact and respond appropriately (pay attention), listening to his/ eyes, noticing that the non -verbal body language has been sharpened, for example / I don't see / I don't see / I don't see / I don't see / I don't see an explanation of an explanation of all problems that are not clear information about RPEATs to ensure questions or understanding what is concerned about / changes, performs / spokesperson with a spokesperson, pay attention to its context (not necessarily agreed) but ignores interests and participation in interaction - it focuses on criticism /ownership of the idea.Exam. And Conquress or correlation. This is a weaker form of argumentation based, for example, on a relationship between two events, because it has to wait. Gives and justifies. For a causal relationship is a common form of reasoning in the field of law, because the causal relationship should be proven. This is the most powerful connection between two events. Key notes. Necessary natural conditions · must be related to a given problem. · can be perceived or considered a fixed fact. · Do the hypotheses guard the surrounding discussions. This happens when the desired result is shown as a necessary condition. This is unacceptable because it begins with what has been proven in point III. Criticism of wisdom and opinions must be justified and basically open to criticism and debate. The criticism of the argument can focus on premises or conclusions. The principle of rationality should be applied. IV. False conclusions do not result from the preliminary conditions from which they should result. The logical sequence should avoid a rational result or conclusion. There are ways to challenge a logical decision in a given situation. · Argumentation is based on weak and unacceptable premises. · Applications based on premises are false. · NO. Sequitur in the final version does not meet the given conditions. What is a good argument? This is a strong argument. Parchi should be not only true, but also understandable and acceptable to the target audience. He must be successful among his audience. Court spiritual preparation bailiffs and protection conduct

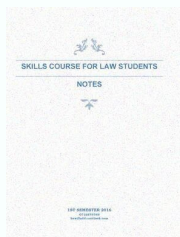

investigations with clients/witnesses, etc. Create a question, prepare the client and submit testimonies This will not accidentally comply with the case of your opponent. · Prevention can also be used to obtain information from the opponent's witness, which can strengthen your background images.
